

COUNTY SEAT ITEMS

Mrs. John Bowen and children have arrived in Mosquero from Texas and announce that John will be in the near future. Mr. Bowen will run the L. W. Wilson Farm while Mr. Wilson takes care of the county assessor's office.

Mrs. Leandro Callegos was visiting Mrs. B. J. Brown, he, piece, Monday and Tuesday of this week and looking after her business interests. She announced her intention of renting out her large ranch on the Carrizal and purchasing lots here in town on which she will erect a modern dwelling house.

A cold wind blew up Monday and Tuesday that succeeded in following a number of motorists. The day was bright and sunny and had all the appearance of a spring day, but there was a hidden bite in the wind that froze radiators and put cars out of commission before the drivers commenced to realize just how cold it was. A number of cars could be seen standing on the streets with the radiators busted and a number failed to reach town before the intense cold put them out of commission.

The county commissioners were in session this week attending to considerable county business that demanded their attention

in order to properly conclude their work and turn the county affairs over to their successors. A number of bills were approved and ordered paid, a number of routing matters attended to and tax and assessments checked up. They were also awaiting action of the supreme court on the injunction proceedings. At a previous meeting the court house and jail bonds had been issued, and arrangements made for their sale as soon as they were received from the printer. The signing and sale of the bonds was delayed until the matter could be threshed out in the supreme court. At the time of writing this article, Wed., no decision had been handed down by the supreme court, but was momentarily expected and the commissioners will remain in session until the decision is received and the bonds sold and disposed of.

The teachers and scholars are busily preparing for a big Christmas program. The ladies of the community have gotten behind the movement and the Christmas exercises promises to be one of the crowning events of the winter's social activities. The program and Christmas exercises will be held on Friday, the 22nd at the Auditorium of the new school house.

Mr. J. H. Hale has commenced a new residence house out

on East Water Street, in the corner of the old building. The new building is being completed for the erection of a large two story and basement stone business house on East Main Street, and excavation will commence during the next few weeks. This will be one of the best buildings in town. Slowly but surely the town is forging to the front. We suggest as a town motto the four words "Just watch our spoke."

Quite an epidemic of colds, Grippe or Flu, or something like affliction has been going through our community working havoc with the people and boosting the business for the doctor. No serious cases have resulted but a great deal of inconvenience has been experienced.

Mr. W. P. Mealey, who has been confined to his bed for several days with an acute attack of something or the other, probably the last name, is now able to be up and around and is transacting business at the abstract office.

The Wilson Company are having a big sale in Mosquero this week and quite a number of people are taking advantage of their reduction in price of a large and assorted line of general merchandise.

We have been watching the little fight between the Developer and the Spanish American with considerable interest. It was getting quite interesting and promised to "warm up" in good shape in the near future if the S. A. hadn't have called a halt. We were just getting ready to give our friend the same advice that the little girl gave her mother, when she got into a neighborhood row with one of the next door neighbors. And her mother argued back and forth, screamed and vilified, read pedigrees of the neighbors back to the tenth generation, the little girl hollered to her mother and said "Oh, mamma, call her an old she-devil before she calls you one first." Like the little girl we were just getting ready to suggest that he call the other fellow one a fine descriptive name before the other fellow beat him to it.

Well, that Mills correspondent refuses to quarrel with us. The Mora County Editor hasn't tried to rub our fur the wrong way for a long time, and even our wife has been so darned good natured that we couldn't get a quarrel at home. Not even when we went determined to see if supper was ready, and with avowed intention of not eating a blamed bite if it was and just raising a thundering big row if it wasn't could we get up an argument. It's just disgusting the way the old world is becoming pacifist again. There is not enough news in this part of the county to keep a correspondent in writing trim, we kinda chirped up a little bit, when some fellow over in the other part of the state becomes disgusted with himself and committed suicide, probably over having voted the Democrat ticket, and thought that a lot of our measly Democratic Friends around here might follow the example and do likewise, but even that hope seems to be destined to an early death as several days have passed and the stores report no increase of sales in arms, ammunition or rope or rat poison. Oh, well, what's the use, anyway?

F. A. Roy delivered several car loads of cattle to Kansas City market this week and was in the Drover's National Bank Tuesday when the credit manager of this bank was held up and robbed of \$75,000. The robbery took place so quickly that scarcely anyone knew what had happened until the credit man was mortally wounded and the robbery completed. The robbers escaped in a waiting automobile.

ROY SCHOOL NOTES

The fifth grade is preparing for the arrival of "Old Santa."

The following question was asked in Nature Study recitation: "What is the effect of cultivation on the soil?" Benlah Gibson answered "The act of spreading."

We, the 5th grade are making preparations for Semester Exams.

We have read the poem in English "The Building of the Ship" written by Langfellow.

MILLS AND VICINITY

We do not mean to complain, but we will certainly be glad when the S. A. get through moving into its new home and we receive our paper on Friday on Saturday instead of Monday. We have been doing the last few weeks. Somehow we can't get in the right mood for waiting our next weeks items until we have read what we wrote the week before, but nevertheless our middle name is patience.

The church building in Mills will be wearing a new coat of paint in the future. Different people in the community have donated the paint, but unfortunately the minister or none of the members seem to be painters.

Vane Anderson and family of Erick, Okla., arrived here one day last week where they will remain this winter and send their children to school. Thurman Case who has been visiting at that place returned with them.

C. I. Knouf of near Roy, painted H. W. Dykeman's garage last Wednesday. Mr. Knouf has done quite a bit of painting in and around Mills this fall and he has shown that he appreciates our patronage by offering to donate one day's work on painting the church any time that we are ready for him to do so.

Mr. and Mrs. H. B. Albertson are slowly recovering from the effects of eating something poisonous last Thursday.

Miss Marjory Leohard is assisting in the Wilson office while Mrs. Albertson is indisposed.

Wm. Buttram and C. Cleveland who purchased the Schoevarstead of groceries dissolved stock of groceries, dissolved partnership last week and Mr. Buttram became the sole owner of same.

H. L. Boyd, J. M. Winch and C. H. Garner made a business trip to Rayon Tuesday.

E. C. Whipkey and sister in law Mrs. Orville Spencer left Thursday for Erick, Okla. where the latter will visit relatives and the former attend to business matters.

H. B. Albertson and B. E. Moyer are grading the city streets.

C. Cleveland and family moved Thursday into what is known as the Swope building. Harry Minter of Gladstone

sold H. L. Boyd a big load of corn and delivered it Tuesday. Anyone wanting car repairing done, should see Thurman Case. He pulled E. D. Bartmess motor last Tuesday, overhauled it, and had it all back together in six hours.

Roy Meyer went to Denver, Colorado, Tuesday and brought back a new Coupe which he expects to use on special occasions such as going to see his wife's folks, etc.

Have you seen those beautiful Xmas cards which the S. A. is getting out; they are dandies and only \$1.00 for 25 cards and envelopes. Leave order at once for cards.

Character in Conservatism

The conservative man is not necessarily an unprogressive, cautious or timid man. The conservative man usually is thoughtful and intelligent, refusing to follow will-o'-wisp ideas of foolish or scheming leaders.

Summed up, the character of conservatism is caution without timidity and a sincere respect for the world's experiences.

This bank reflects an individuality of conservatism. It is a safe, sane and serviceable institution for you to profit through. Whether it be deposits, checking investment or loan, you will be glad of making this bank your bank.
